

WTT BIO-BOOSTER (Powder)

WTT BIO-BOOSTER is a unique blend of proteins, amino acids, vitamins, trace minerals and other organics. The ingredients in this product accelerate microbial growth in a variety of wastewater treatment applications. **WTT BIO-BOOSTER** is an excellent supplemental product used to boost microbial count values.

PRODUCT SPECIFICATIONS

PRODUCT SPECIFICATIONS

Product Properties

pH.	3.5-4.5
Nitrogen.	7.0-8.5
Ammonia Nitrogen.	1.5-3.5
Phosphorus.	2.4 min
Reducing Sugars	1.5 max
Protein.	48%
NPK Value.	8/7/6

PRODUCT BENEFITS

- Improves Nutrient Deficiency
- Improves Microbial Count Values
- Improves Clarification
- Adds Trace Minerals
- Reduces Sludge Build-Up

Dosage: Dosage will vary depending on waste concentration, loading and nutrient deficiency. A 1% minimum solution is recommended based on influent flow.

Packaging: 25 lb. Buckets
